Anne Babineau Loans Local Artwork to Jersey City, Celebrating Community and Redevelopment Efforts

12/19/24

Wilentz's role as counsel on Redevelopment Projects in Jersey City since the 1980s caused the Firm to acquire a Painting by Jersey City artist Michael Fauerbach. The Painting served for many years as a source of inspiration in the Firm's Office.

As Anne Babineau said "I have always loved the way it starts off dark in the bottom right corner, and works toward the light in the upper left, which reminds me of the satisfaction that often comes from working through challenging projects."

Recently the Painting was loaned to Jersey City and it now part of a rotating group of art work in the new Council Caucus Room.

Attorney

- Anne S. Babineau

Practices

- Real Estate
- Redevelopment
